# **County Waste Department to host Garden Talk on growing from seeds**

Green thumbs looking to jump start their garden with tips from Master Gardeners are invited to a talk on everything seed related. Growing plants from seeds not only saves money, it also increases the quality of the plant. Learn how backyard gardeners can save their own seeds, buy less seeds, and store seeds for ideal sprouting.

Plus it's fun to collect and trade seeds among other gardeners.

Attend a free Garden Talk presentation on Saturday, Aug. 10, from 9:30 - 10:45 a.m. at the Riverside County Waste Resources office located at 14310 Frederick Street in Moreno Valley. The presentation is part of the UC Cooperative Extension Master Gardener Program.

The Riverside County Department of Waste Resources provides this free class to reduce waste and help preserve valuable space in county landfills, and to decrease the amount of chemical waste residents bring to the Household Hazardous Waste collection program for processing and disposal.

To view the 2019 Community Outreach schedule of free classes or for more information, contact Riverside County Department of Waste Resources at (951) 486-3200 or visit:
