County Waste Department to host Garden Talk on growing from seeds

Green thumbs looking to jump start their garden with tips from Master Gardeners are invited to a talk on everything seed related. Growing plants from seeds not only saves money, it also increases the quality of the plant. Learn how backyard gardeners can save their own seeds, buy less seeds, and store seeds for ideal sprouting.

Plus, it's fun to collect and trade seeds among other gardeners!

On Saturday, June 26, from 9 – 10 a.m., the Riverside County Department of Waste Resources will host a virtual Garden Talk that can be accessed on any computer, tablet or smartphone.

Growing from Seeds

June 26, 2021, 9 am - 10 am
Zoom Meeting ID: 987 9429 1369
Passcode: 246766

The presentation is part of the UC Cooperative Extension Master Gardener Program.

The Riverside County Department of Waste Resources provides this free class to reduce waste and help preserve valuable space in county landfills, and to decrease the amount of chemical waste residents bring to the Household Hazardous Waste collection program for processing and disposal.
